Subject: FW: REVISED: Draft of response to HSST letter on IRIS - ready for OCIR and OGC
Attachments: 5-10-16 CLS to McCarthy re IRIS Program.pdf; HSST Response_draft4 5-26-16.docx

Hello Lou, Kacee, Elizabeth and Maureen,

FYI – Tom Burke has reviewed and has no further edits to the IRIS HSST response. I will send to OCIR this morning and they will review and share with OGC. Once final and approved them, we will get Tom to sign sometime next week.

Thanks,

Kacee and Elizabeth – this attached clean draft has been vetted through NCEA, Bob, Lek, and Maureen and is now ready for Tom's quick review. Both the incoming and draft final response are attached. Once approved by Tom, I will send to OCIR and OGC for their review – before we get it signed by Tom.

Let me know if this is something you can get to Tom this afternoon for his book.

Thanks,

Subject: REVISED: Draft of response to HSST letter on IRIS

Hi David and Maureen. Thanks for getting comments back to us quickly, and I've incorporated the comments as we discussed in email. Attached is a clean version of the revision – the only addition beyond your comments was the sentence about being fully responsive in the next to last paragraph that we shared in email.

I'm responding to the earlier message to include the incoming letter, and I'll add other managers to this email message.

So you know, we have letters from ACC and NAMC (the M stands for Metals) critical of the decision not to use the FR for announcements. They were addressed to me, and I have very simple responses prepared to go out with my signature. I'll incorporate the improved language that Kacee developed for this letter about the use of FR notices and transparency. Our plan is to get these two letters out soon, as this letter heads up the chain.

Subject: Draft of response to HSST letter on IRIS

Hi David,

Attached is a copy of the incoming letter from HSST on IRIS, as well as our draft response, reviewed and cleared in NCEA. Hope it strikes the right balance between a narrative format and clarifying some of the points we wanted to make. Let me know if you or the IOAA have any questions/comments/edits. I'm assuming you can fill people in on timeline considerations?

-Lou
